Subject: Storm Debris Removal Update

City of Norman
201 West Gray
Norman, Oklahoma 73069

Press Release

For Immediate Release

Contact: Carol Coles
City Of Norman
366-5404
carol.coles@normanok.gov

To date, essentially all storm debris on street right-of-way has been removed. There is still a substantial amount of debris in back yards that has not been moved to the street right-of-way. The amount of debris removed by the contractor has steadily declined since Monday, June 7th. For these reasons, the City has decided to suspend debris removal operations effective Thursday, June 10th and resume operation on Monday, June 21st. By this date, citizens are encouraged to move all debris to the street right-of-way that they want removed. Citizens are asked to keep vegetative debris separate from construction & demolition debris. All debris must be less than 22 ft. in length to fit in the contractor's trucks.

To report private property damage incurred as a result of this debris removal operation, please call the Beck Disaster Recovery hotline at 1-800-413-2325.

Please check the City of Norman Website **www.normanok.gov** for additional information and updates on the debris removal process. For more information, please call the City's Action Center at **366-5396**.
